Experience

Adani Enterprises Ltd   **January 2024 - June 2024**
Robotic Process Automation (RPA) Intern   *Ahmedabad, Gujarat*
- Developed tailored automation workflows utilizing the Automation Anywhere A360 platform for Adani Group teams, streamlining fiscal tasks and facilitating report generation. Involved automating processes within SAP ERP and several web applications.
- Designed web applications using the Django framework to provide convenient access and display of reports across different departments.

Core Media   **June 2023 - July 2023**
Web Developer Intern   *Vadodara, Gujarat*
- Developed a full-stack CMS web application for ecommerce management using NextJS
- Implemented Clerk Authentication and handled payments using Stripe, integrated Cloudinary to handle images

Projects

Ecommerce Platform | *MERN stack, Firebase, MUI, Razorpay, Redux Toolkit*
- Created a complete Ecommerce platform using the MERN stack and Firebase
- Created a minimal, functional, responsive storefront using MUI, where users can browse, purchase, wishlist, track orders
- Integrated Razorpay payment gateway to provide hassle-free checkout for users and Mailjet for order confirmation mailing system
- Designed and created a custom CMS from scratch for admin to manage inventory, track orders and payment status, view customer details and view charts providing transactional and logistical insights

GameTrakr | *React, Express, NodeJS, MongoDB, Netlify*
- Developed a webapp to search, shop, explore and keep track of deals on various games across different stores.
- Created a minimal UI using React, styled with vanila CSS
- Used MongoDB Atlas for a cloud based no-sql database
- Created custom JWT authorised APIs for authentication and authorization

Personal Portfolio | *NextJS, MUI, Framer Motion, Notion*
- Created a personal portfolio website to showcase skills and projects
- Uses Notion as a CMS
